

I am opposed to the proposed change in broadcast ownership rules. I believe that it will stifle competition on the airways. We already have concentration of the media with 4 or 5 large conglomerates owning the major media outlets. We need diversity of ownership in order to have diversity of opinion. We don't need to have Clear Channel owning all the newspapers and TV stations as well as the radio stations. Please uphold the consumers' right to see, hear, and read divergent viewpoints, especially on the public's airways.
